Some quick facts about Hawai'i

Hawai'i is the only US state outside of North America; 2000 miles from the US mainland; the only state located entirely in the tropics; and of course, entirely comprised of *islands*. Settled by Polynesians around 124 AD, the island of O'ahu maintains the only **palace** on American soil, as it was a monarchy until 1893 when it was overthrown by Western businessmen, and quickly annexed by the U.S. Hawai'i became a state in 1959. Although started as a plantation economy, Hawai'i still maintains its reputation as a healthy agricultural exporter. It is also home to the US Pacific Fleet, the world's largest naval command. The lure of the sea pervades all! The hospitality of Hawai'i is felt everywhere, and the true spirit of ALOHA will fill our souls to provide a lasting sense of warmth as we head back home. If you haven't been, *this January is the time to go*: Book your flight today! Some of us are considering remaining a few days after the event.

January is a fantastic month to enjoy the great weather in the Hawaiian Islands. After this long pandemic, it will be a wonderful respite from the doldrums of winter. Book your flight today!
